

CAPABILITY STATEMENT

Team DSG is the ideal partner to support and enhance existing applications; design and implement migrations to emerging technologies and environments; and support the full IT infrastructure. Comprised of **DSG Systems** as prime supported by **NuAxis Innovations**, **Michael Baker International**, and **Banyan Technology Solutions**, we have an established history of delivering innovative and cost effective IT services and solutions to Federal customers, specifically to the Bureau of Land Management (BLM) and agencies of the US Department of the Interior (DOI).

<http://www.dsgsys.com>

- Extensive capability in enterprise IT program management, application development and software life cycle management (cloud, mobile, GIS)
- Demonstrated accomplishments in legacy application and data migration
